

# GUE FUNDAMENTALS COURSE

DEC 10/11

•  
DEC 17/18

Find new levels of stability and awareness in the water, lower your gas consumption, refine the skills needed to take better underwater photos and video, and prepare yourself for more adventurous and challenging dives.

## What is it?

GUE Fundamentals is the gateway to further GUE training and the entry point for divers who already have a qualification. It's not a technical course. It's a course designed to turn basic skills such as buoyancy, trim and propulsion into rock solid, reliable tools – and turn you into a **confident, skilled diver**.

## What can I expect?

We take already qualified divers and improve them – taking basic skills such as buoyancy, trim and balance, and dial them up to "11". Your capacity and awareness in the water will improve, enabling you to deal with potential problems underwater so you can dive without stress or worry. You'll also find that your future dives last longer and gas goes further,

The GUE Fundamentals course puts **YOU** in control of your diving. Held over two weekends, this course is without exception described as the best value diving education people ever take.

## Course Details

- Four days
- 6 dives
- Pre-reqs: Open Water, non-smoker
- Equipment req'd: Standard GUE Equipment Configuration (Please contact us for more details)
