

## LEARN TO DIVE - CHRISTMAS OPEN WATER PROGRAM

This is where we all start when we learn to dive and it's all done in the space of 4 days (27 - 30 December 2017). Diving is easy and fun, it creates new social and travel opportunities and allows you to connect with the ocean and discover a new world.

Your Open Water course is made up of 3 modules:

### THEORY

**Wednesday 27 December 2017, 6pm - 8pm:** The home study component of the theory is done at your convenience and at your own pace. It is then reviewed in a classroom session with your instructor.

### CONFINED WATER (POOL) TRAINING

**Thursday 28 December 2017, 9am - 3.30pm:** This phase of the training takes place in the comfort of a heated pool. You will go through 6 specific key areas and skills sets that will give you the knowledge and confidence to transition successfully into the ocean. This will be achieved through numerous pool dives during the day.

### OPEN WATER TRAINING

**Friday 29 December 2017, times to be confirmed:** You will do 2 Open Water dives where you will demonstrate to your instructor your ability to perform the skills learnt in the pool.

**Saturday 30 December 2017, times to be confirmed:** You will finish your course with 1 boat dive and another shore dive experiencing some of the best of Victorian diving.

COST: \$599

### PREREQUISITES

A dive medical may be necessary following the completion of a medical questionnaire. We can provide you with a list of suitably qualified doctors.
