

Exploring Beyond the Surface

SSI Continuing Education

Enriched Air Nitrox Diving

Nitrox has many advantages: longer bottom times, reduced surface intervals and reduced nitrogen absorption. Nitrox doesn't only benefit technical divers but can make the diving experience more enjoyable for everyone. In this course you will learn about:

- **Physics & physiology of nitrox**
- **Analyzing nitrox cylinders**
- **Planning nitrox dives**
- **Using nitrox dive computers & SSI nitrox tables**
- **Managing exposure to nitrogen**
- **32% and 36% nitrox (and other mixes)**
- **O2 clean and O2 service rated equipment**

Your Nitrox diving course consists of online training and 1 theory session.

PRE-REQUISITES:

Open Water diver certification

INCLUSIONS:

- Online Nitrox diver materials and certification
- Tuition
- use of analysis and assessment gas blends

COST: \$250 (pay only \$150 if you are a club member!!)
